

BLACK & WHITE PRINT TEST PAGE

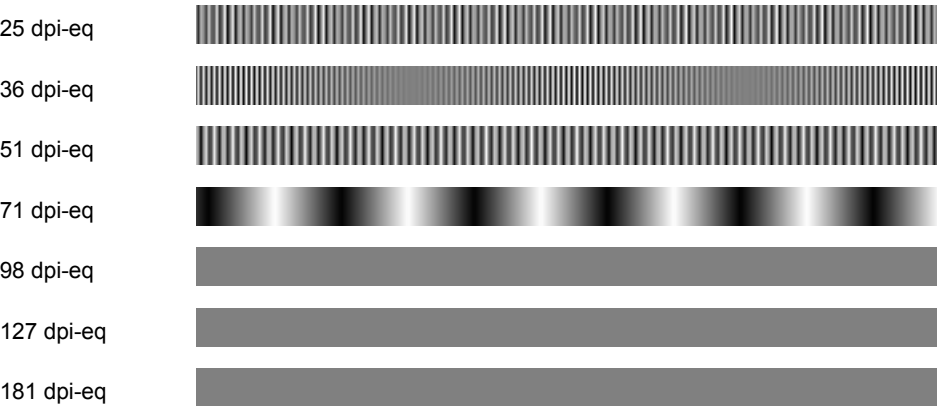

Tests black density, greyscale separation and fine line reproduction.

100% BLACK SOLID — no grey banding

21-step greyscale wedge — each step must be distinct, no two neighbours merging

Line pairs — if the finest rows blur together, resolution or fuser pressure is off.

Legible at 4mm — Handgloves 0123456789

Legible at 3mm — Handgloves 0123456789

Legible at 2.4mm — Handgloves 0123456789

Legible at 1.9mm — Handgloves 0123456789

Legible at 1.5mm — Handgloves 0123456789

Legible at 1.2mm — Handgloves 0123456789

Grey banding in the solid block = toner problem or dirty drum. Uneven printed density.
